DETAILED ACTION

Response to Amendment

1. This action is in response to the communication filed on December 4, 2006.
2. Claims 1-42 are pending in this action. Claims 18, 37, 42 have been amended. Claims 19 and 38 have been canceled.

Allowable Subject Matter

2. Claims 1-39 and 42 are allowed over the prior art of record.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 40 and 41 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.
5. Claims 40 and 41 are directed to non-functional descriptive material. Non-functional descriptive material cannot exhibit any functional interrelationship with the way in which computing process are performed and therefore does not constitute a statutory process, machine, manufacture or composition of matter.
6. In claims 40 and 41, the applicant claims a computer useable medium storing a data structure to be used in speech recognition.
7. The speech recognition database as claimed is merely carried on the medium; it is not structurally and functionally interrelated to the medium. The speech recognition

database as recited is merely stored on the medium so as to be read or outputted without creating any functional interrelationship, either as part of the stored data or as part of computing process performed by a computer. The allowance of such a claim would exalt from over substance. See Guidelines section IV.B.1(a)-(b).
